

# Synology Drive Hard Disk Space b? quá t?i

Synology Drive Hard Disk tự nhiên bị quá tải vì Synology Drive Repo Folder chứa quá nhiều Versions

?i?u c?n làm là t?t Versions thông qua trình Drive Admin

B?t ssh và vào ssh xóa folder trong **volume2/@synologydrive/@sync/repo**

Ch?nh schedule task xóa files v?i Empty Recycle Bin

Disable Recycle Bin cho các folder hay ? ??a

Riêng phần ssh vào xóa files thì đây là command:

```
root@Synology:/volume2/@synologydrive/@sync# ls
cache-db.sqlite          log-db.sqlite           notification-db.sqlite   syncfolder-db.sqlite   view-route-db.sqlite
cache-db.sqlite-shm     log-db.sqlite-shm      notification-db.sqlite-shm user-db.sqlite          view-route-db.sqlite-shm
cache-db.sqlite-wal     log-db.sqlite-wal      notification-db.sqlite-wal user-db.sqlite-shm     view-route-db.sqlite-shm
delta                   job-db.sqlite-wal      node_delta              repo                   user-db.sqlite-wal     view-route-db.sqlite-wal
root@Synology:/volume2/@synologydrive/@sync# rm -rf repo
```

```
sudo -i

đánh password

cd volume2/@synologydrive/@sync

rm -rf repo
```

còn muốn check folder size thì cứ đánh command sau:

```
du -h -d1
```

1 là số depth
