

Open Port 2375 for Docker API

1. Create `daemon.json` file in `/etc/docker`:

```
{"hosts": ["tcp://0.0.0.0:2375", "unix:///var/run/docker.sock"]}
```

2. Add `/etc/systemd/system/docker.service.d/override.conf`

```
[Service]
ExecStart=
ExecStart=/usr/bin/dockerd
```

3. Reload the systemd daemon:

```
systemctl daemon-reload
```

4. Restart docker:

```
systemctl restart docker.service
```

5. firewall

```
ufw allow 2375/tcp
ufw reload
```
